Data Partnerships
in Action

NCES
Summer
Forum and
Data Conference

Attention Forum Members

Come and participate in discussions on how to improve the quality and use of elementary and secondary education data. Join other Forum representatives from school districts, state and federal agencies, and national associations in committee and task force work, and participate in roundtable discussions on topics such as managing data on virtual education, data modeling, and improving data quality. Learn about the status of ongoing Forum best-practice guides in the areas of virtual education, data quality curriculum, and data elements for school exit codes. Please check the Forum website at <http://nces.ed.gov/forum> for more information about Forum activities.

Data Conference Highlights

Join us at the NCES Summer Data Conference for networking, updates on federal and national activities affecting data collection and reporting, and information about the best innovations in collecting, reporting, and using education statistics. Researchers, program administrators, and national leaders will share the latest information about national, state, and local statistical and program data initiatives and information policy issues. The activities will include half-day training sessions for fiscal and nonfiscal state Common Core of Data (CCD) coordinators, and a 2-day "track" of presentations by national experts in school finance. Other sessions will include up-to-the-minute information about NCES's survey and assessment programs, discussion of how states and districts are responding to the accountability needs of No Child Left Behind, and overviews of state projects in information technology. National efforts to establish data standards and common definitions will also be a topic of discussion.

Agenda/Registration Information

Please check the NCES website for additional information about the Summer Forum and Data Conference. The agendas for both activities will be updated continually between now and July. To find the information, go to the NCES home page at <http://nces.ed.gov/whatsnew/conferences>, then hit the prominently displayed Forum and Summer Data Conference button. This will take you to meeting agendas and to the online registration form. Remember—information about sessions and schedules will be updated regularly, so check the website!
